EXPERTISE

- React JS
- Angular
- JavaScript
- Node JS
- Django
- Python
- Java
- MySQL & Oracle DB

EXPERIENCE

Grand Palace, Unity Park | IT Expert Mar 2022 - Present

Throughout my journey as a IT Expert, I have engaged in diverse projects, including the development of locally running web interfaces functioning within local networks. Additionally, I have contributed to the creation of hosted websites. My commitment to continuous improvement is evident in my exploration of new application platforms, such as React Js for frontend web development and Spring Boot for the backend.

Microfinance, and Small Business Development | IT Expert Dec 2019 - Feb 2022

Throughout my role as a IT Expert, I've successfully executed projects, including crafting locally running web interfaces and contributing to hosted websites. I specialize in web penetration testing for enhanced system security and excel in optimizing network configurations for improved performance. My expertise extends to utilizing React Js for frontend web development and Spring Boot for backend operations, showcasing a dynamic skill set ready for versatile challenges.
